

AKC Events # 2018148201 & 2018148202

LICENSED by the AMERICAN KENNEL CLUB

OPEN TO ALL AKC REGISTERABLE POINTING BREEDS

This hunting test will be held under the rules and procedures of the AMERICAN KENNEL CLUB

Double Hunt Test Weekend 5/19 & 5/20, 2018

We will be partnering with the German Shorthaired Pointer Club of Minnesota (GSPMN) to coordinate holding 4 complete hunt test events over the weekend, 1 event per club each day. Each event will hold 3 stakes per day. Enter a dog in only one, or up-to-four events. Paperwork must be filled out for each event you wish your dog to participate in. Checks must be written to each club sponsoring the stake entered.

The clubs will coordinate our draw together to work best for all - focusing on the Senior/Master stakes. Entries are limited to the number of dogs which can be run during available daylight hours. Entries will close when the limit is reached. This may occur prior to the specified closing time. Telephone, Facsimile, and E-Mail entries will **not** be accepted! **The Judges will be using horses.**

JUDGES: Judges' decisions are final. Once the dog comes to the line, the judge has complete control over dogs and handlers. Judges shall have the authority to disqualify a dog that is not present within five (5) minutes after it has been called to run by the judges. A person may not agree with a judge's decision, but he/she cannot confront the Judge, other than to politely ask why the dog did not qualify. Any rudeness on the part of the handler is subject to disciplinary action. Judges are not obligated to discuss scores with handlers, but if they elect to do so, such discussions shall be held only after completion of the test. A handler can complain to the Hunting Test Committee and write to the AKC, but he/she should not confront the Judge. The Hunting Test Committee will take action regarding such situations at the conclusion of the stake.

Bitches in Season: Bitches in season are eligible to run the **last** brace of the day on each field/level at the club's discretion. After the test chairperson/secretary has been notified, the committee will adjust the draw so that **the bitch in season runs immediately after all other entries on the field/level for the day.** Entry fees paid for a bitch withdrawn because of coming into season shall be refunded in full if appropriate veterinary certification is provided.

Safety: All handlers, gunners, marshals, judges and gallery participants for all test levels will be required to wear an upper outer article of blaze orange. An orange hat alone DOES NOT meet the requirement. Eye protection recommended in Senior and Master tests.

A Break Action: (S x S, O/U, Single Shot) shotgun must be carried by Master Test Handlers. **(No pump action, bolt action, or semi-automatic shotguns are permitted.)**

Blank Pistol: must be carried by all handlers in all test levels during their brace.

Tracking collars: Use of AKC approved tracking collars is permitted

Food: Lunches and beverages will be available on grounds both days of the event for a cash donation.

CERTIFICATION

Permission has been granted by the American Kennel Club for the holding of this event under the American Kennel Club rules and regulations.

JAMES P. CROWLEY, Secretary

The Minnesota Brittany Club Hunting Test Committee would like to invite you to our AKC Licensed Hunting Test.

These tests are designed to test your dog against a written standard from the AKC. The standards presented are to assess your dog's ability in a simulated hunting situation. You are not tested against other dogs, merely the standard put forth in the "AKC Hunting Test Rules and Regulations Manual" which is available from www.akc.org.

AKC Hunting Test

For Your Safety...

All Handlers and spectators must wear an article of orange. NO EXCEPTIONS!!

Spectators will need to be with a field marshal to observe the brace. If you do not have an article of orange, please see a club member to obtain one for use at the event. When done using, please return that article to the club.

These events do require the use of dogs and horses. The Hunt Test Committee cannot guarantee the disposition of these animals. We ask that parents do not allow their children to approach the dogs and horses while they are tied out (without permission). We don't want to see anyone get bit, kicked, wrapped up in chains or hurt in any way.

Junior Hunting Test: A Junior hunting dog must show a keen desire to hunt, be bold and independent, have a fast, yet attractive, manner of hunting, and demonstrate not only intelligence in seeking objectives, but also the ability to find game. A Junior hunting dog must establish point on at least fifty (50) percent of the birds it encounters, but no additional credit shall be given for steadiness to wing and shot. If the handler is within reasonable gun range of a bird which has been flushed after a point, a blank cartridge must be fired by the handler. Junior hunting dogs must hold point until the handler gets within normal gunshot range. *This requirement should be tempered by practical considerations such as the dog's distance from the handler when it finds a bird.* Junior hunting dogs must also show reasonable obedience to their handler's commands.

Senior Hunting Test: A Senior hunting dog must show all of the attributes of a Junior hunting dog. In addition, the Senior hunting dog must be steady to wing on all pointed birds and must remain in position until the shot or they are released. A Senior hunting dog must retrieve. All birds that are pointed by the Senior dog in a bird field must be shot where safety allows. If gunning is being done on course, all birds pointed on course must be shot where safety allows. A legitimate attempt to retrieve all downed birds must be made. *Conditions such as the type of cover where the bird landed, the terrain, and the condition of the downed bird, sometimes make a retrieve impossible, and this should not reflect negatively on the score of the Senior dog.* Whenever it encounters its brace mate on point, it must honor. A dog that steals its brace mate's point cannot receive a Qualifying score.

Master Hunting Test: A Master hunting dog must give a finished performance and demonstrate clearly that it deserves to be qualified as such. This is the complete hunting companion that any hunter would be proud to own. It must be under its handler's control at all times, and handle kindly, with an absolute minimum of noise and hacking by the handler. A Master hunting dog must show a keen desire to hunt, must have a bold and attractive manner of running, and must demonstrate not only intelligence in seeking objectives, but also the ability to find game. The dog must hunt for its handler at all times at a range suitable for a handler on foot, and should show or check in front of its handler frequently. It must cover adequate ground but never range out-of-sight for a length of time that would detract from its usefulness as a practical hunting companion. The dog must locate game, must point staunchly, and must be steady to wing and shot on all birds and if it breaks, it cannot receive a Qualifying score. Intelligent use of the wind and terrain in locating game, accurate nose, and intensity on point are essential. Whenever it encounters its brace mate on point, it must honor. A dog that steals its brace mate's point cannot receive a Qualifying score.

A Master hunting dog must positively demonstrate its steadiness to wing and shot. All birds that are pointed by the Master dog in a bird field must be shot where safety allows. If gunning is being done on course, all birds pointed on course must be shot where safety allows. Gunning must be done by Official Guns only. A legitimate attempt to retrieve all downed birds must be made. *Conditions such as the type of cover, where the birds landed, the terrain, and the condition of the downed bird, sometimes make a retrieve impossible and this should not reflect negatively on the score of the Master dog.* All killed birds must be retrieved promptly, tenderly and absolutely to hand. The handler shall not command or signal the dog to retrieve until positive steadiness has been demonstrated.
